CITY COUNCIL ORDERS PHONE RAISE FOUGHT

Action Of Mayor Evans Approved Question Of Improved Service Must Be Considered First

Action of Mayor Evans in requesting the City Attorney to take steps to prevent by legal action, the Cumberland Telephone and Telegraph Company from violating its contract with the people of Richmond in the matter of rates, was formally approved and endorsed by the city council at its regular meting Thursday night. The City Fathers gave official instruction to City Attorney Chenault to institute injunction preceedings against the company, which has been ordered to make rate increases by the governmental bureau in charge of the wires. Action of Mayor Evans in request

Local manager Harris has been notified by his superiors that the company will stand ready to refund to subscribers any increase in rates they may have to pay, in the event that courts finally decide that increases are illegal. Other states and communities have gone into the courts also to fight the proposed increases and there is no doubt but that the matter will go to the United States Supreme Court for final decesion.

In many quarters there seems little objection to the increase in phone rates in Richmond, provided, however, that there is an improvement in the service that the company gives its patrons. The City Council will undoubtedly order the telephone and electric lighting and power wires placed underground in the business section of the city, and poles removed along the streets, at the time the new paved streets are laid. This suggestion has popular approval on all sides. If Richmond is the streets in phone Slightly Wounded—Charles Bourle, Louisville, Walter Peters, Dayton.

STANLEY FOR CRONAN EXPLOSIVES FOUND IN

(By Associated Press)
Louisville, May 2—The Times today says a report is current that in
exchange for support of Thomas
Rhea for Governor by a Louisville organization, Governor Stanley will
vote to confirm former sheriff Chas.
Cronan as collector of internal revenue of the Fifth district. It further
stated that Stanley will take this action in the extra session of Congress.
This is held to dispose of the rumor
that Stanley would hold on at Frankfort instead of being sworn in as Senator upon convening of Congress.

TROOPS WERE READY

(By Associated Press)
Cleveland, O., May 2—It became
known today that federal troops with known today that federal troops with two machine gun companies, were mobilized just outside the city yes-terday in readiness to suppress disor-ders from socialist May Day demon-strations in the event the police could not cope with it. Government author-ities today are considering steps to deport every foreign-born person con-nected with the riot. Deaths today as a result of the demonstration number-ed two.

TODAY'S HONOR ROLL

The appearance of the city with its paved streets will be enhanced a hundred per cent by removal of the unsightly poles and wires from the main business section. At the time the operating companies are removing their wires, it will be an easy matter for the phone company to install the central system in its plant. This system of operation requires no ringing by the person who wishes to call Central. Simply lifting the receiver from its "hook" calls central and replacing the receiver cuts off connection. Most all modern cities have this sort of service now. Other towns in Kentucky, the size of Richmond have it, and there is no valid reason why Richmond should not enjoy its benefit also. The proposal to raise the rates comes in line with suggestions for improving the service teltphone patrons of Richmond. It is understood that high officials of the company will soon come to Richmond with plans and a proposition regarding needed and desired improvements.

a Harmless Substitute.

Dr. Edwards' Olive Tablets—the substi-tute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His efforts to banish it brought out these little olive-colored tablets.

Ittle olive-colored tablets.

These pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel, but to let Dr. Edwards' Olive Tablets take its place.
